

Gator® Cable Center Conductor Cleaner

GATOR

- **Ergonomic handle** makes tool easy and comfortable to use.
- **Reversible teeth** guarantee exceptional performance over a long life.
- **Integrated beveller** removes burrs that can damage connector's seizing mechanism and tool's cleaning edge.

DESCRIPTION

An essential cable preparation tool for preparing hardline cables after coring, the Gator tool bevels the center conductor to prevent the connector's seizing mechanism from being damaged and scrapes away bonded dielectric to fully clean the center conductor.

APPLICATIONS

The Gator is used on any hard-line cable after it has been stripped and cored.

SPECIAL FEATURES

An Ergonomic Body:

Made of durable plastic, the Gator body fits comfortably in either hand. The tool is easy to use and offers exceptional performance over a long life.

Gator[®] Cable Center Conductor Cleaner

SPECIAL FEATURES *(continued)*

An Integrated Beveller:

Burrs at the end of a center conductor can damage the seizing mechanism of a connector, resulting in signal loss. Using the Gator beveller to remove the burrs is far better than making pyramid cuts. Made of carbide and located on the side of the Gator body, the beveller is always sharp and convenient. Beveling prior to scraping also prolongs the life of the Gator teeth.

Long-lasting Reversible Teeth:

The Gator teeth remove all traces of the bonded dielectric without scoring the center conductor. Reversing the teeth exposes a second set of cleaning edges, which doubles the life of the scrapers. When both sides are worn, the teeth can be easily replaced.

ORDERING INFORMATION

Item	Part Number
Center Conductor Beveling and Cleaning Tool	GATOR
GATOR Replacement Blade Kit (teeth and screws)	TEETH

SPECIFICATIONS

Part Number	Weight (Ounces)	Weight (Grams)
GATOR	2.6	73
TEETH	0.3	9
