

## ART Armor Removal Tools

ART-750CG

ART-1000

- **Multiple angles on steel blades** aid lifting and provide a clean, accurate cut.
- **Safety feature** keeps removed armor coil away from user's hand.
- **Knurled color-coded bodies** ensure a tight grip and time-saving performance.

### DESCRIPTION

ART armor removal tools strip the armored jacket from sub-surface cables.

### APPLICATIONS

ART strippers remove the armor from CommScope® PIII, QR, and Cable Guard sub-surface cables.

### SPECIAL FEATURES

#### Multiple Blade Angles:

ART blades are made from hardened steel and ground to have multiple angles that aid lifting and cutting. The blades provide clean, accurate cuts time after time, but can be easily replaced when necessary.

# ART Armor Removal Tools

## SPECIAL FEATURES *(continued)*

### Designed for Safe

#### Operation:

Thanks to a safety-oriented design, the removed armor coil is kept away from the user's hand.

### Knurled Color-coded

#### Bodies:

A knurled surface ensures a firm grip, while the color-coded body facilitates picking the right tool for different sized cables.

## ORDERING INFORMATION

Replacement blade kit includes blade, spring washer, screw, and hex key.
