

Torque Wrench

Also available:

0.5625" HEAD

SPEED HEAD

- **Factory tested and guaranteed** to provide consistent torque over the life of the tool.
- **Color coded rings** for easy identification of different torque (inch pound) settings.
- **Knurled tool body** provides a gripping surface to ensure a firm hold during use.

DESCRIPTION

Cable Prep torque wrenches prevent damage to equipment from over tightening or signal loss due to loose connectors because of their consistent and precise torque, which is unique in the industry. Unlike other torque wrenches that lose their “snap” over time, the Cable Prep Torque Wrench will always apply the specified torque with every use.

SPECIAL FEATURES

Industry-leading Performance:

The Cable Prep torque wrench has been rigorously engineered, tested and proven to deliver consistent results over the long term.

Torque Wrench

SPECIAL FEATURES

Color coded end caps:

Easy identification of different torque settings ranging from 20 to 40 inch pounds is made possible with color differentiated end caps.

Knurled tool body:

A textured, anodized aluminum shaft provides a gripping surface to ensure a firm hold during use.
